### 1.0 Purpose

The purpose of this procedure is to define a system for Project Execution and Control activities related to construction projects taken up for execution by **KSPH&IDCL**. All the project execution and control activities are carried out with a view to ensure quality of construction, prevention of time over run and cost over run.

#### 1.1 Application

This procedure is applicable to all the construction projects entrusted to **KSPH&IDCL** by the client organisation for execution.

### 2.0 Responsibility

- Contractor (through his designated engineer of the project / site) who has been awarded the project is responsible for carrying out the execution of the project under the supervision of KSPH&IDCL officials.
- 2. EE, AEE and AE/JE/PMC of respective projects are responsible for ensuring execution of works under the following controlled conditions through-out the construction processes.
  - i. Ensuring availability of required resources for the execution of the project.
  - ii. Ensuring the availability of drawings and work specifications to the contractors.
  - iii. Ensuring the Use of suitable equipment,
  - iv. Ensuring the availability and use of monitoring and measuring devices.
  - v. Ensuring quality checks as per plan.
  - vi. Handing over activities.

As the project execution activities are contracted, responsibilities of KSPH&IDCL personnel are mainly to exercise control over construction activities by ensuring availability of resources, effective monitoring and quality control as per contract conditions. Responsibility and authority for various activities involved in the construction management are described in the procedure part.

#### 3.0 Terms and definitions

- 1) **Activity** smallest identified item of work in a project process.
- 2) **Concession –** Permission to use or release a product that does not conform to specified requirement.
- 3) Contractor Organization or Group of persons or a person that provides a product

| Revision: 1 Revision Date: 01.07.2015 Page 1 of |
|---|
|---|

- 4) **Customer / Client –** Organization or person that receives a product / service.
- 5) **Deviation Permit –** Permission to depart from the originally specified requirements of a product prior to realization.
- 6) **Document –** Information and its supporting medium.
- 7) **Project –** Construction of Residential / Non-Residential buildings entrusted by Client organisations to KSPH&IDCL.
- 8) **Procedure –** Specified way to carry out an activity or a process.
- 9) **Product –** Result of a process
- 10) **Progress evaluation –** assessment of progress made on achievement of the project objectives
- 11) **Quality Assurance –** Part of quality management focused on providing confidence that quality requirements will be fulfilled.
- 12) **Quality Control** Part of quality management focused on fulfilling quality requirements.
- 13) **Record** Anything (Such as a document or a photograph) providing permanent evidence of or information about past events; it also includes documents in digital form
- 14) **Requirement –** need or expectation that is stated, generally implied or obligatory.
- 15) **Review –** Activity undertaken to determine the suitability, adequacy and effectiveness of the subject matter to achieve established objectives.
- 16) **Specification –** Document and stated requirements of the product.
- 17) **Verification** Confirmation, through the provision of objective evidence, that specified requirements have been fulfilled.

#### 4.0 Procedures

Following abbreviations and terms are used in the table;

 $\begin{array}{lll} D = Document & R & = Record \\ PR = Procedure & CL & = Check list \\ PC = Pour card & TP & = Test procedure \\ STD = Relevant BIS & TR & = Test Records \\ \end{array}$ 

MD = Managing Director ED = Executive Director

FA = Financial Advisor CE = Chief Engineer SE = Superintending Engineer EE = Executive Engineer

DES = Designs QC = Quality control and Contracts

Govt. = Government of Karnataka Client = User department

TP = Third party PMC = Project Monitoring Consultant

PRC = Project review committee consisting of

MD, ED,FA, CE, SE and other designated employees as determined by the MD / ED/CE.

#### 4.1 General

| Revision: 1 Revision Date: 01.07.2015 Page 2 of |
|---|
|---|

As the project execution activities are contracted, responsibilities of KSPH&IDCL personnel are mainly to exercise control on projects product through effective monitoring at all stages during the execution of the project.

### 4.2 Planning for Execution of works

Concerned Executive Engineer of a division who is considered as the project manager shall plan for achieving the objectives of project execution with a view to deliver the product as per the requirement without time and cost over run. In this endeavour, he shall delegate required responsibilities and authorities to other staff of the division / sub-division to plan and achieve the objectives. Further he will interact with the respective KSPH&IDCL personnel as and when required depending on the situation to avoid deviations from the objectives envisaged.
